	Goggles for dilution
	Mask for dilution

Step by Step cleaning instructions

PLEASE WASH YOUR HANDS BEFORE & AFTER YOUR TASK

Place safety signage top and bottom of lift to alert public that cleaning is taking place

Thoroughly sweep the floor, paying attention to all edges and corners

Clean all glass, mirrors, and stainless steel with correct cleaner and buff to a shine.

Clean handrails and lift keypad last as these are touchpoints and where most germs can be found.

Ensure door channels are clear of debris (call for Janovac if necessary)

Visually check the floor and if required using clean mop and water/solution, damp mop the floor (wring mop out as tightly as possible)

When task complete remove safety signage only when area is safe & dry.
